Issue 10

June 2006

We thought it was time to update you all on our progress. Things are moving along at breakneck speed (at least it feels that way...). We would like to thank all of you who have supported us in our project so far. We really appreciate it as it is an encouragement to us. At time of writing our support is in the high 90%.

We went to California in April for two weeks of training. It was an experience. We, all seven of us, were crammed into a one bedroom apartment. It went better than expected as

the kids were so tired at the end of the day that they fell asleep very quickly. An MAF wife, Val Dawson, took care of the kids while Hugo and Erica were in classes all day from 8am to 5pm. The classes focused on relationships, with each other and other expatriates and nationals, how to stay healthy both physically and spiritually, and some cross-cultural training.

We had a nice time getting to know the other couples, some of whom are also assigned to Papua.

Now our focus is on getting ready to go. We have been working hard to finish our house. We are very thankful to have a family from our

fore we go.

We plan to be out of our home by the July long weekend after which we will go to Vernon to visit Erica's parents for the weekend and then use their tent trailer for a week at Ellison Park. The kids are very excited

that we are going camping again even though we thought we wouldn't be able to go again for a long time.

We have purchased a new set of hearing aids for Christiaan and he loves them. We have also been given an FM system to use for the duration

of our time in Indonesia. We thank the BC Family Hearing Resource Centre for this. This is a real blessing as we were prepping ourselves for possibly having to spend over \$4000 on a system! God truly does provide.

So now we head into the final stretch. July 14th will be here before we know it!

church lined up to rent our house while we are gone. We are also getting together the things we need to pack into our crate and going through all the things we already have and don't need anymore. Know anyone who needs a van or a couch set??

We have also done a few presentations in some of our churches. We will be doing one more yet in Vernon be-
